

 **MODERATE**

I'm excited to be kicking off this month's mini quilt theme! This set of three mini quilts is inspired by barn quilts. Make one or all of these fun, quick projects using a single charm pack and some yardage. This speedy project is perfect for that one charm pack you love, but can't figure out what to do with!

I used three classic quilt blocks for these little beauties. These patterns take advantage of the duplicate prints available in most charm packs. You can do the same or use different fabrics for a scrappier look. Most charm packs feature various prints in a single colorway, making for easy combinations.

The mini quilts finish at 14" and 14 1/2".

## INGREDIENTS

One charm pack of Pepper and Flax by Corey Yoder

1/4 yard of each of three coordinating Bella solids—white, gray, and yellow

1/3 yard of three different fabrics for border and binding (fabrics will be mixed and matched among the three quilts)

1 yard of backing fabric (use the same fabric for all three mini quilts)

## INSTRUCTIONS

A note about border and binding fabric:

I used three different fabrics for the borders and bindings. I mixed and matched these fabrics among the three quilts, so that each quilt had a different border and binding fabric, but each fabric was used once as a border fabric and once as a binding fabric for the three quilts. You can comfortably cut two strips by the width of fabric for the border and two strips by the width of fabric for the binding from each of the three fabrics.

Constructing Half Square Triangles:

These patterns make use of half square triangles (HSTs) several times. To construct a HST, take two squares of equal size. Draw a line diagonally down the back of the lighter square. With right sides together, stitch a scant 1/4" away from each side of the line. Cut down the line and press open.

## YIELD

These three mini quilts finish at 14", 14", and 14 1/2".

There are many options for quilting these fun little projects! I quilted each one a little differently. On one I did a cross hatch design, on one stippling, and on one I echoed the shapes with my quilting. Mini quilts are great opportunities to try a new quilting technique or do something a little outside your usual quilting style. Happy sewing!
