INSTRUCTIONS

Before you begin:

Read through the entire pattern before you begin so that you may plan out which fabrics you want to use in the various sections.

- All seams are a true quarter inch
- Fabrics were spray starched before cutting
- Seams were all pressed to the darker fabrics
- Personally, I cut and sew one block at a time to keep order in my messy sewing room and for a sense of accomplishment.

The blocks should be trimmed to 16 1/2 inches so that they finish at 16".

Draw a line from one corner to the opposite corner on the reverse side of the four 3 inch squares.

Place two 3 inch squares on the 5 1/4 square of low volume fabric, RST and small squares in opposite corners. The lines on the reverse sides of the 3 inch squares should flow together
